

Extension Cable Kit

CA4(10m)/CA12 (20m)

Installation Instructions

These instructions should be retained in a safe place for future reference.

INTRODUCTION

Section 1

The Response Extension Cable Kit is intended for use with Response Wired CCTV systems. When installing this cable it is important to read the installation and operating Instructions for the system being extended to ensure that the maximum length of cable is not exceeded.

SAFETY AND INSTALLATION TIPS:

When installing CCTV camera(s), always follow manufacturer's advice when using power tools, steps, ladders, etc. and wear suitable protective equipment (e.g. safety goggles) when drilling holes. Before drilling holes through walls or ceilings check for hidden electricity cables and water pipes. The use of a cable/pipe detector is advisable.

When installing this cable, it is advisable to use cable conduit to protect it from being exposed externally and to prevent/reduce the chances of the cable being tampered with. After drilling any hole through an external wall for a cable, ensure the hole is sealed around the cable using a sealant to prevent drafts.

Do not open or expose this cable and components to rain, water or wet conditions. There are no user serviceable parts. Refer servicing to qualified service personnel.

- 1 x 10m or 20m (depending on kit purchased) BNC (female plug) to BNC (male plug) extension cable
- 1 x BNC (male) to RCA (female) adaptor
- 1 x BNC (female) to RCA (male) adaptor
- 1 x Installation manual

INSTALLATION INSTRUCTIONS

**BNC (female) to
RCA (male) adaptor**

**BNC (male) to
RCA (female) adaptor**

1. Determine what type of connector is terminated at the end of your existing extension cable used to view the wired camera.
2. If the end is a male type BNC plug, then simply connect the female end of this extension cable into your existing cable to extend it.
3. If the end of the existing extension cable is an RCA male type plug, then connect the supplied BNC (male) to RCA (female) adaptor onto the female end of this extension cable and plug into your existing extension cable to extend it.
4. Use the supplied BNC (female) to RCA (male) adaptor if necessary to connect the camera.

Directive (2002/96/EC)

This product is classified by the Waste Electrical or Electronic Equipment (WEEE) Directive. It should not be disposed of with other household or commercial waste. At the end of its useful life the packaging and product should be disposed of via a suitable recycling centre. For information on available facilities, please contact your local authority or the retailer from where the product was purchased.

Novar ED&S undertakes to replace or repair at its discretion goods (excluding non rechargeable batteries) should they become defective within 1 year solely as a result of faulty materials and workmanship.

If the product has not been installed, operated or maintained in accordance with the instructions, has not been used appropriately or if any attempt has been made to rectify, dismantle or alter the product in any way the guarantee will be invalidated.

The guarantee states Novar ED&S entire liability. It does not extend to cover consequential loss or damage or installation costs arising from the defective product. This guarantee does not in any way affect the statutory or other rights of a consumer and applies to products installed within UK and Eire only.

If an item develops a fault, the product must be returned to the point of sale with:

1. Proof of purchase.
2. A full description of the fault.
3. All relevant batteries (disconnected).

Response is a trademark of Novar ED&S.
